Six retired Irishmen were playing poker in Managhan's flat in Donegal when Sean O'Toole loses \$700 on a single hand, clutches his chest and drops dead at the table. Showing respect for their fallen brother, the other five continue playing standing up. Finally Managhan looks around and asks, 'Oh, me boys, someone's got to tell Sean's wife. Who will it be?' They draw straws. Cavan Colquhoun picks the short one. They tell him to be discreet and gentle and not make a bad situation any worse. 'Discreet? I'm the most discreet Irishmen you'll ever meet. Leave it to me.'

So Cavan arrives at O'Toole's house and knocks on the door. Brenda O'Toole answers and asks what he wants. Cavan declares: 'Your husband just lost \$700 and is afraid to come home.' 'Tell him to drop dead!' snarls Brenda. 'I'll go tell him.' says Cavan.

#### Pretty for Awhile

'Murphy,' asked the pharmacist, 'did that mudpack I gave you improve your wife's appearance?' 'It did surley,' replied Murphy, 'but it keeps fallin' off.'

Mrs. Feeney shouted from the kitchen, 'Is that you I hear spittin' in the vase on the mantel piece?' 'No,' said himself, 'but I'm gettin' closer all the time.'

Paddy is cleaning his rifle and accidentally shoots his wife. He dials 911. Paddy says "It's my wife, I've accidentally shot her. I've killed her." Operator: "Please calm down sir. Can you first make sure she really is dead?"

#### CLICK, BANG

Paddy: "OK, done that, what next?"

Doolin bought himself a jigsaw puzzle with 20 pieces. It took him a month to fit the pieces together correctly. He thought this was terrific, but his mate O'Reilly said, 'What's the big deal?' Doolin said, 'Well it said on the box: 4 to 6 years.'

## COBRA CONNECTION

Volume 1, Issue 4

January 29, 2010

### Camera upgrade for BC Place Stadium awarded to Cobra We congratulate our bidding team - Geoff Thomas, Richard Wallace, Scott Knutsen.

With less than three weeks remaining, before the opening ceremony of the 2010 Olympics, upgrades are being made to the closed circuit camera system in two phases. Phase 1 will ensure cameras will be at peak operating capacity for the Olympics while Phase 2 will address additional replacement of cameras, after the Olympics.

With a very tight schedule, the Phase 1 portion of the contract is anticipated to take only 1 week to complete. We are sure that all involved in this project will rise commendably to this challenge.

#### Inside this Issue

- 2: World news

- 4: Company Info, Joke corner.

Webb Electronics Inc.  
Webb Solutions Ltd.

Some exciting new developments for Webb moving forward into 2010. Webb customers provide valuable feedback to assist Webb in the development of new telephone products. There are two new products that were introduced in the marketplace in the fall of 2009.

1. The Multi-Function Machine Room Station
2. The Multi-Phone-Line Lobby Rescue Station

These products provide both inbound/outbound calling from within the complex or from outside the complex and can call any elevator cab connected to the station.

In October Peter & Scott had the opportunity to meet with both Webb customers and consultants in Toronto to keep them updated on Webb products. Further, we are pleased to announce that with expanded delivery options for Webb products, the Greater Toronto area will now have the ability to receive delivery of Webb products either same day or within 24 hours.

Our Edmonton branch (Keith & Kevin) are making steady progress. We anticipate a banner year for Webb as we are continually gaining better exposure in the North American Marketplace.

**ENGLANDER'S PUT TO THE TEST!**

One Chap, stripped parts from his Jaguar (seat and tire) to devise an alternate method of transportation.

He informed the barkeep, shortly after his arrival, "A little snow won't keep me from my pint of Guinness."

Which begs the question, 'Can you still get an impaired charge - if the horse is driving???'

**Cobra crew makes trip to England**

A special team, assembled at Cobra, make a trip to England to assess security needs for a new development.

Webb to follow when the project enters the second phase. Phase 2 will be the construction of multi-level, residential and commercial igloos!!!

**Annual Christmas Party was a great event**

We thank Brian, Donna, Erica, and Scott for a wonderful evening. With almost full attendance by our staff and their partners, just about everyone left with a gift. However, it was very sad that Brian and Donna could not attend (due to Brian's temporary illness).

There are many, many pictures of the evening (far to many to make a selection to print in this edition).

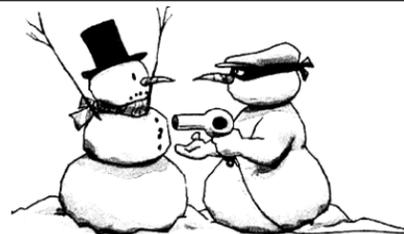

We look forward to other upcoming company functions and will keep you informed well in advance.

**New Years at the Sylvester home**

Donna was taking an afternoon nap on New Year's Eve before the festivities. After she woke up, she confided to Brian, her husband, 'I just dreamed that you gave me a diamond ring for a New Year's present. What do you think it all means?'

'Aha, you'll know tonight,' answered Brian smiling broadly.

At midnight, as the New Year was chiming, Brian approached Donna and handed her a small package. Delighted and excited she opened it quickly. There in her hand rested a book entitled: 'The meaning of dreams'.

**Give me the scarf and nobody get's hurt.**

**AIRPORT SECURITY**  
*Full-body scanners - a virtual strip search, as some call it - are coming to Canada as early as next week. 44 Scanners slated to arrive in airports across Canada.*

Transport Canada spokesman Winston Smith said "We feel this strikes the necessary balance in protecting passenger safety. "Passenger privacy will be fully protected, because all individuals being strip-searched will wear a paper bag over their heads, preventing security officers from seeing their faces."

Health Canada will further compensate travelers by including free prostate exams and PAP smears as part of the inspection process.

"We won't just be striking a blow in the war on terror," said Reductio Ad-Absurdum, a spokesman with the Prime Minister's office. "We'll also reduce the burden on our public health-care system by screening early for cervical and prostate cancer. We think Canadian will be open to the value-added benefits."

"Flying is a privilege, not a right," said one passenger. "The world is a scary place," said another. "I don't mind my government sticking its nose into every nook and cranny."

While civil libertarians and others soft on terrorism suggested the new policy was an affront to human dignity, public response was muted. "If you have a problem with it, then don't fly."

Peter Rampf (Webb Electronics) recently traveled to Nevada for a think tank event with the branch of CSA International that oversees and implements Safety Codes for Elevators.

Congratulations to Peter for getting elected to the Emergency Operations Committee.

Real Elevator Shoes

Chad Currie our IT Specialist 'extraordinaire' recently spent a week in Toronto for training on the latest upgrades to Keyscan.

One System - Total Control

If you don't know; Keyscan is a leading manufacturer of premium control systems that electronically regulate doors and elevators.

**Swap and Shop**

NEW SECTION

**Two light fixtures**

With recent renovations to his kitchen, Wray Reiss has submitted these two items that are in perfectly good working order, (he simply has no use for them).

If you are interested, contact Wray as soon as possible.

**OLD IS WHEN**

- An 'all nighter' means not getting up to use the bathroom
- Your friends compliment you on your new alligator shoes and you're barefoot.
- A sexy babe catches your fancy and your pacemaker opens the garage door.
